I have made it through 12 of the 22 vCISO supercharge courses. Below is the feeling..lol. This is great stuff. It has fully reinforced some of the exercises I did over the years in [REDACTED] and what I'm doing now with [REDACTED]. The SOW and pricing template will be huge for me. I appreciate the work you put into those for everyone. #keeponpushing

How are things going?

Would love any feedback you have - what you've found really useful so far, or any constructive suggestions or comments are always welcome!

I'm loving it so far. Now all my travel is over. I'll have more time to execute on the things that I learned in the supercharge. I do need to work on pricing and a better, repeatable SOW. All things are great. I have more to do! I look forward to our call on Monday.
